

WORK OF THE WIND.

MUCH DAMAGE DONE IN ILLINOIS TOWNS.

GALVA ALMOST ENTIRELY WRECKED

One Person Killed and Twelve Seriously Injured—The Property Damage Over Two Hundred Thousand Dollars—A Frightful Railroad Wreck in Kentucky—Other Casualties.

GALESBURG, Ill., June 15.—There passed through the northeastern part of this, Knox county, about 8 o'clock Monday evening, a most destructive tornado, and ruin was left all along its path. It seems to have made its first appearance northwest of Galva. About 7:30 o'clock threatening clouds were noticed in the west approaching one another and the tornado is thought to have resulted from their junction. Its course was south and west through that city and the main body of the storm passed along the main business street.

It came with such suddenness that the citizens had no time in which to fly to places of safety. In the Free-mont church there was assembled a congregation. In the rink there was gathering a committee for a Fourth of July celebration. The church was quickly a mass of ruins and the congregation was imprisoned. A number were injured, one dangerously. The rink was blown down, but those inside managed to escape without injury. Had the storm come a few moments later many would have been in this building and loss of life would surely have resulted.

The storm was accompanied by midnight darkness and an awful sweep of wind that carried everything before it. Nearly every business house along the principal street was unroofed and the stocks of goods were badly damaged by floods of water following the tornado.

The saddest feature occurred at August Olsen's house. There were in the house at the time Mr. and Mrs. Olsen, Charles Olsen and four others. The house suddenly collapsed, killing Mr. Olsen instantly, and the others escaped by a miracle. The place yesterday was in a state of demoralization. Business was completely suspended. The streets were filled with debris of every description. The stores were more or less in ruins. Hardly a residence but what will need repairs. The damage is estimated at \$200,000. Considering the number of buildings wrecked, it is surprising that there was not greater loss of life. Mr. Olsen was the only one killed.

The seriously injured number twelve. After leaving Galva the tornado went in a southeasterly direction, according to some, following Walnut creek. From all accounts it must have been three or four miles in width. Considerable damage was done and numerous people more or less injured at Alton, Ill., and Lafayette, Ind.

MORE MONEY WANTED.

OH City and Titusville Are Sadly in Need of Immediate Assistance.

PITTSBURG, Pa., June 15.—At a meeting of the Pittsburgh relief committee here yesterday it was decided to issue an appeal for more money to relieve the oil region sufferers. It was stated that the lowest estimate of the amount of money needed for the relief of the people in the two flood swept cities was \$300,000, and that only 25 per cent of that amount has already been subscribed. Pittsburgh and Allegheny have contributed \$25,000 of the \$75,000 so far received.

TITUSVILLE, Pa., June 15.—Mayors and relief committees from Bradford, Warren and other points were here yesterday to look over the situation. All agree that a very large amount of money is yet absolutely necessary to relieve the distress. The question of employment is now a vital one and efforts are to be made by our own citizens to put our manufacturing on their feet. The terrible heat has forced the sanitary committee to double the force of men employed. Temporary sewers are being built in various parts of the city. Contributions are coming in slowly.

A FRIGHTFUL WRECK.

A Freight Train Drops Two Hundred and Fifty Feet Through a Trestle.

MIDDLESBORO, Ky., June 15.—A frightful wreck occurred at the trestle spanning Lonesome hollow, near here, yesterday afternoon. Freight engine No. 10, with sixteen loaded box cars, went through, one on top of the other. The distance from the top of the trestle to the ground below is 250 feet. The engineer, Frank Sargent, Fireman Henry Slater and Conductor Duckworth were killed outright. The north bound passenger train was only saved by being one-half hour late.

Higher Than Ever Known.

GREAT FALLS, MONT., June 15.—The Missouri river is higher than ever known since the existence of this city. People along the shore are driven from their houses. Bridges are washed out so that there has been no trains over the Montana Central from Helena since Friday. All passengers from the west are held here, including many delegates to the national A. O. U. W. convention at Helena. The eastern span of the iron wagon bridge over the Missouri river was moved fourteen inches out of line.

Iowa Visited by a Cyclone.

BOONSVILLE, Ia., June 15.—Two severe storms, cyclonic in character, passed

over this region yesterday. Both times there were cyclones and the situation was alarming. The water covered a full flood street.

Earthquake in California. SAN ANA, Cal., June 15.—An earthquake shock lasting nearly thirty-two seconds was felt here yesterday morning. The vibrations were from east to west.

MISSOURI CROP REPORT.

Conditions Are Favorable and Much Improvement Is Reported.

COLUMBIA, Mo., June 15.—The weather crop bulletin for Missouri weather service of the state board of agriculture for the week ending June 12 says:

This has been the most favorable week of the season for agricultural pursuits and interests and the reports of little rain, warm, and plenty of sunshine is too universal to admit of much comment. Summarized the conditions are as follows:

Corn planting and replanting has been rushed through. The ground is still wet in many places, but planting will be finished by the 18th. Though the heat and sunlight are making wonderful improvements in its condition the corn is generally of poor color and some damage by ants is reported.

Wheat is improving rapidly in condition and color, but there is some damage by rust and the lowland crop is seriously injured. Some wheat will be ready to cut in ten days or more.

Oats are improving but are heading very slow and the acreage is short. Cherries are ripening but are a small crop, and owing to continued wet and cold all fruits have declined seriously from early promises. Grapes are being injured by worms.

Grass is generally fine, though all flat meadows are only fair and haying has already commenced in many sections. Cotton reports show a decidedly poor outlook for the crops as much of it is reported dying.

THWARTED THE MOB.

The Negro Plend at Guthrie Is Spirited Away by the Sheriff.

GUTHRIE, Ok., June 15.—A mob of 200 men called at the jail last night and demanded the negro Holley, who is charged with criminal assault and who was returned here from Wichita for preliminary hearing. The jail was turned over to the mob, but the man had been taken away.

At the preliminary hearing Mrs. Moore was present and identified the negro Holley as her assailant. Holley waived examination. His bond was fixed at \$2,000.

WASHINGTON, June 14.—President Harrison sent the following telegram to the governor of Oklahoma yesterday:

You will use the most prompt and vigorous efforts to preserve the peace if there is danger of a conflict at Guthrie. The law must be allowed to take its course and any attempts at lynching sternly and effectively resisted. You will have the support of all good citizens and should advise me if any further assistance is needed.

Intense Heat in the East.

NEW YORK, June 15.—The intense heat of Monday was continued yesterday throughout this section, numerous cases of prostration being reported. Last night the atmosphere was cooled by a wind storm, in some places so severe that roofs, chimneys and trees were scattered about in confusion. Lightning struck several houses in New Jersey, but so far no serious casualty has been reported. In this city there was an increase in the death rate, due to the excessive heat. Monday there were seventy-seven deaths and yesterday 160 were recorded.

A Blaze at Rich Hill.

RICH HILL, Mo., June 15.—The largest fire that ever visited Rich Hill started at midnight. The losers are: R. T. Thornton, drugs; W. K. Royce, dry goods and groceries; W. A. Harris, billiard hall; Wilson & Patterson, restaurant; Widener & Kagel, cigar factory and store. Most of the losses are covered by good insurance. The fire burned one-half a block on Main street, composed of frame buildings. The fire company responded promptly and did good service. The total losses are estimated at \$35,000.

Troops for Strikers.

BARCELONA, June 15.—The troubles occasioned by the strikers are likely to be brought to an end soon. The government warships arrived here yesterday. They anchored in positions where the whole harbor is under sweep of their guns. The arrival of troops and warships has restored public confidence in the government's ability and intention to maintain order, and the excitement in the city has in a great measure died out.

Witnesses Were All Dead.

VALLEJO, Cal., June 15.—An inquest was held last night on the bodies of the men of the United States steamship Boston who were killed in the explosion on Mare island. Nothing new was developed, as there was no one to give direct testimony, thirteen of those who were at the scene of the explosion being dead. A verdict of accidental death was found for all.

Death of Consul Willard.

NOGALES, Ariz., June 15.—United States Consul A. Willard at Guaymas, Sonora, Mexico, died there yesterday of paralysis, aged 67. He was a native of Connecticut and has been in the consular service for about thirty years.

Bank Receiver Appointed at Guthrie.

GUTHRIE, Ok., June 15.—Harper S. Cunningham has been appointed receiver for the National bank of Guthrie. The bank went into liquidation some time ago. It had a paid up capital of \$100,000.

NOTES AND GOSSIP.

Things Seen and Heard in the Corridors of the National Capitol.

WASHINGTON, June 15.—Representative Peel of Arkansas, chairman of the committee on Indian affairs, speaking of his bill for opening the Cherokee strip, said: "So far as can be seen now there will be little opposition to the bill in either senate or house. It is on the calendar but will not be brought up this session. Next session I expect to see it go through and as a result the lands ought to be open by March 15, next year."

The sessions of the house during the Minneapolis week were slim. They promise to become thinner during the Chicago convention. Over half the Democratic members will be there.

Representative and Mrs. Holman have been married just half a century. Members of the house are making up quite a purse, one which will buy three ciphers to express it, to buy a testimonial for the watchdog and his helpmate.

Kansas City's public building plans still conceal themselves in the office of the supervising architect. Edbrook is away and his lieutenant, Low, reports that the sketches are not finished. No one will be allowed to see them until Edbrook approves them and that will not occur until the house settles whether the appropriation is to be increased the asked for \$800,000.

THE BENDERS AGAIN.

This Time They Are Said to Be Living in San Jose, Cal.

PARSONS, Kan., June 15.—The Bender family, who have probably furnished more newspaper items than any one family in the history of Kansas, have been caught again, as will be seen by the following letter, in which was inclosed a photo of the old man and woman received by Postmaster Lusk of this city yesterday. The letter is sent from San Jose, Cal., dated June 1, and the substance is as follows:

"Postmaster, Parsons, Kan. 'The inclosed picture is copied from a book giving the criminal records of Kansas, and is supposed to be old Bender and wife. Do you recognize or know of anyone who can recognize it as such? The Benders are supposed to be residents of this city, at least, although they look somewhat older than they did when the murders were committed, they are evidently the same ones. The woman gives a history which leads to the conclusion that she escaped through the Indian territory, bringing up in Texas, and finally landing at San Jose, where she and her old man have lived for a number of years."

The photos are on exhibition at the Sun office in this city, and anyone desiring to secure the reward can see them.

A Big Coal Deal.

SHENANDOAH, Pa., June 15.—The Pennsylvania railroad company, after lengthy negotiations, has obtained full control of the William Penn coal company colliery, the official transfer to Stickney & Co., as agents, having just been made. This is an immense operation and is owned principally by E. & G. Brooke, the Birdsboro iron manufacturers. It is located at William Penn, two miles west of this place, and has an annual shipment of close to 500,000 tons, employing fully 700 men and boys. This new move of the Pennsylvania company will necessitate the opening of a new branch road from its terminal at this point, as shipments have been made heretofore via the Reading. There will hardly be any change in the management, as William Lewis, superintendent, has been for some time general manager of the Pennsylvania Company's coal interests in the Schuylkill region.

Southwestern Firemen's Tournament.

SPRINGFIELD, Mo., June 15.—About the only business of importance at the tournament of the Southwestern Firemen's association here yesterday was the election of officers. Charles McKinney of this city was elected president and H. H. Mitchell secretary. There was a drill at the fair grounds last night and this forenoon the grand parade took place, after which the tournament exercises will begin and continue until next Friday evening.

Knights of the Mystic Chain.

PITTSBURG, Pa., June 15.—Supreme Castle of the Ancient Order of Knights of the Mystic Chain, was called to order here yesterday afternoon. Delegates are in attendance from almost every state and territory in the country. The sessions will last three days and will conclude with a grand banquet Thursday evening.

Schaefer Leaves for Paris.

CHICAGO, June 15.—Jake Schaefer left Chicago yesterday afternoon for New York, accompanied by Billy Catton. The two have received passage on Le Bretagne to Havre and will sail Saturday next. "I cannot tell the exact date when the match between myself and Ives will take place," Schaefer said, "but it will be near the 25th of July."

Six Men Drowned.

NAPOLEONVILLE, La., June 15.—Six men were drowned here by the sinking of a small ferryboat in Bayou La Fourche. Their names are Edmond Schneider, Jaconini Nardelli, Robert Aiken, colored, and two unknown Italians.

**FAIRBANK'S CLAIRETTE SOAP.**

Indispensable in every well regulated family for all Household and Laundry purposes.

Made only by N. K. FAIRBANK & CO. ST. LOUIS.

This is a BAZOO—Price ten Cents—Directions for Using, E.

This wonderful musical instrument, for the people now on earth, imitates a bird or animal. With it you can play or sing any tune. It requires no instruction to use it. Let one play a lively tune on a violin, BAZOO, piano or organ, and two or three others drone an accompaniment with the BAZOO and you have a good pipe. You can imitate "Punch and Judy" to perfection by speaking in a shrill voice. Do not blow into the BAZOO; but sing, speak or make some noise, as the cut-out-cut-da-cut of a hen, the caw of a crow, the caw of a crow, the caw of a crow and hundreds of other noises. If the BAZOO does not work properly, place the lips over the four holes in the tin and draw the breath in and out a few times. Many imitations can be made better by speaking through the three round holes in the wood, or covering three holes in the tin with the lips, leaving the fourth uncovered. A quartette or chorus singing through the BAZOO will bring down the house with great applause and invariably receive repeated encores. Buy the BAZOO's, organize a quartette and try it. It furnishes good dancing music to excursions, picnics, etc.

The music produced is new and taking. String and brass orchestras find the BAZOO a very important addition. The BAZOO sells readily in stores, street and newstands, 2-5 lbs. cases, pleasure resorts, &c. Price, 10c. by mail 11c.
